Verbal Description

Pierced ladle censer base w/ one partial hole measuring 1cm in diameter. No handle attachment. The hole appears to have been punched from the interior, but because of the erosion of the exterior, it is hard to tell. No firing core is evident. Firing clouds are evident on both the interior + exterior. No slip, paint, or decoration. There appears to be evidence of scraping on the interior + exterior. The piece is ended, exposing the temper.
